Defense Supply Center Richmond

Letter of Appreciation

Senior Chief York;

It is my great pleasure to recognize your association for supporting the VA60 (Southside) Squadron. On March 28th, 2006, your association showed its support by attending the Squadron Change of Command. Normally, attending a Change of Command is done in respect and recognition of a member's current command or for support of friends and family.

In the case of the Richmond Area Top III association, I believe your support was much more. You came to honor a fellow member of the United States Military. Your attendance was more for the sake of camaraderie rather than for the sake of duty. Going out of your way to show that kind of respect and honor reflects a great deal of integrity for your association's obvious support of our military brothers and sisters.

Your association's actions bring great credit to itself and to the Military Forces of the United States. Please keep up the good work. Also, please pass to all of your members that you and your entire association are always welcome at our squadron.

my best regards:

Lawrence Evans, Capt
Commanding
